

Notes - How to fill in your Statement of Income

- 1 A CPS Statement of Income should be submitted to the Director General, MRA by every individual deriving business income (including income from profession, vocation or occupation) and rental income and whose total gross CPS income for the preceding income year exceeded 4 million rupees.
- 2 You may opt to calculate your chargeable income for a CPS quarter based on either **Method 1** or **Method 2**.

Method 1 - The chargeable income for a quarter in the income year ending 30 June 2019 should be computed by reference to the chargeable income, net income and the total net income of the preceding income year as follows:

$$\frac{25}{100} \times \text{chargeable income} \times \frac{\text{net income falling under CPS}}{\text{total net income}}$$

Method 2 - Compute the gross income derived in the CPS quarter and deduct therefrom the expenses incurred in the production of that gross income.

Where the chargeable income in respect of the CPS quarter is computed by applying **Method 1**, no CPS statement should be submitted in case the tax payable for the CPS quarter does not exceed 500 rupees.

3 Business expenses

Expenses incurred exclusively in the production of gross income are deductible. Expenses of a private nature and expenses incurred in the production of exempt income are not allowable.

Where in respect of certain items of expenditure the amount is not known at the time of making the Statement of Income, an estimate of the expenditure for the quarter may be included in the Statement of Income.
